PRODUCTS AND SERVICES

PRODUCTS

DSolusi is reseller for several hardware products such as

lenovo

Synology

And several Software products such as

SERVICES

IT Maintenance Services

Providing support for internal network operation of Information Technology, this objective can be made by:

1. Support for Server, PCs, Printers, Network Devices, PABX, DVR and other IT devices
2. Maximizing network scalability
3. Engaging new technology that will enhance company's performances

However, handling networks are very complex; furthermore there are many areas liable to misinterpretation. As a result, one who is not well versed in the subject of Information Technology may miss network and system enhancing opportunities. To avoid these situations, a company needs to engage a professional IT consultant.

Business Application

DSolusi can provide helps in custom IT Application as an answer for the needs of a company's development.

Website Development

We are experience in creating website using PHP, ASP, ASP.NET and database such as MySQL, SQL 2000, Access, SQLite, XML and Text.

Network and System Integration

DSolusi has the experience to build network and system that will run accordingly and suitable for company application. We provide solution for Network and System Integration that can fulfill your company needs .

IT Consulting

To be able to integrate System Information that can fulfill the need, a company needs abroad knowledge. Then a company required a professional help in connecting between the company and vendor. A professional help that can really understand what the company needs, so the right solution can be provided.

Internet connection Provider

DSolusi provides a high speed internet access to the Global Internet. With this service, it enables you to send & receive email faster, download big files or even watch online streaming. The benefit using this service is an unlimited connection for 24 hours a day and 7 days a week. The service is suitable for corporate and residential.

The technology that can be use is :

- Wireless
- VSAT
- Lease Line
